

Kickstart **ART** - Snow Monkeys kicked off the new term by making their own surrealist-dadaist photomontage, inspired by artists like **Salvador Dali**.

The **Year 4**s have made an energetic start to 2024 by comparing three versions of the **The Princess and the Pea**, and learning how to punctuate **dialogue** correctly. In maths, we covered addition and subtraction **up to 10,000**, both with and without renaming. Additionally, we have begun studying geometry, with a focus on measuring, classifying and comparing **angles, triangles, and quadrilaterals**.

In **Year 2** Literacy, we started the term by exploring fiction books about the **wild**. We discussed and compared characters, settings, and themes in **Fox** by Margaret Wild and Ron Brooks, **The Tin Forest** by Helen Ward and Wayne Anderson, and **The Whales' Song** by Dyan Sheldon and Gary Blythe. In maths, we began on a very positive note by exploring a range of thermometers and using them to read the temperature.

In **IPC**, we jumped to a new unit called **Young Entrepreneurs**. We brought out the **entrepreneurs** in us with an **Entry Point** activity—transforming an ordinary jar into something **extraordinary**.
